Projects & Experience

Creator & Lead Developer

Asset Hatch ↗

Dec 2025 - Present

Built production-ready AI game asset generator in 11 days using multi-agent pipeline. Orchestrated Claude, Gemini, and Flux.2 for planning, generation, and testing. Documented methodology across 18-part technical blog series.

Next.js 15 Vercel AI SDK Prompt Engineering 30K+ Lines

Creator

Catwalk ↗

Dec 2025

One-click MCP server deployment platform. Users paste GitHub repo URL, AI analyzes config, deploys to isolated Fly.io container with Fernet-encrypted credentials. Implements Streamable HTTP per MCP 2025-06-18 spec. Documented methodology across 7-part technical blog series.

Python FastAPI Fly.io MCP Protocol

Creator

TheFeed ↗

Nov - Dec 2025

Food security platform connecting people with food banks via Mapbox-powered map. Built AI 'Sous-Chef' assistant with CopilotKit. Dual-path architecture: anonymous crisis access + authenticated community features. Documented methodology across 14-part technical blog series.

Mapbox GL CopilotKit Drizzle ORM Social Impact

Career

Workability Tech

San Juan USD

Jan 2024 - Present

Customer success specialist bridging education and employment for students with disabilities. Provide 1:1 job coaching, resume/interview training, and stakeholder coordination. Tech-first operations with standardized workflows.
